Dear Mr. Feller,

The additional information provided by Charles Snow is sufficient to meet the filing requirements for a notice and receipt of your notice is acknowledged. The filing covers the removal of 20 tons of rock only. Exact reclamation needs will be determined upon completion of operations, but are expected to consist of recontouring cuts, applying topsoil and seeding of disturbed areas.

Please be advised that the rock is considered to be a common variety, not subject to location under the mining law. If you desire to acquire additional rock, a material sale would be necessary. You should apply for the material sale 30 to 45 days before the rock is needed.

If you have any questions, please contact Steve Brooks at (801) 977-4371.

Sincerely,

Howard Hedrick
